## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose applicant's standardized silicon platform chip [claims 1-14] or computer-executable instructions for performing a custom interconnect design for the standardized silicon platform chip [claims 15-18], wherein the chip can be distinguished from prior art by an array of unconnected transistors that surround a plurality of islands each island having elements that can complete a varied circuit function including at least gates, flip-flops, clock trees and oscillators that are custom connectable and the computer-executable instructions (on a computer-readable medium) prompt custom clock requirements in the context of the claimed standardized silicon platform chip.

Applicant's invention can supplant ASIC, ASSP and FPGA of the prior art, maximizing performance and time to market [Fig. 1].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 6,552,410 is cited because it contains claim terminology, but does not disclose the standardized silicon platform in the context of applicant's written description.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan Pert whose telephone number is 571-272-1969. The examiner can normally be reached on M-F (7:30AM-3:30 PM).
